This modern villa, situated in the tranquil international area of Balcón al Mar, was beautifully renovated in 2021. The property comprises two floors and a spacious basement. Upon entering through a bright, street-level porch, you are welcomed into the ground floor. To the left, there is a charming entrance hall that leads to a vast, airy, and sunlit living room featuring a wood-burning fireplace, high ceilings, exposed wooden beams, and four large windows that offer spectacular views of the valley and the sea. On this same level, you will find a modern open-plan kitchen with an elegant island design, a stunning white marbled countertop with brown veining, and an invisible induction hob, along with a fully updated set of white cabinetry. Adjacent to the kitchen, there is a unique and captivating naya (traditional porch) with hypnotic and relaxing views of the valley, the sea, and the mountains. Bathed in natural light, this space is perfect as a dining area or cozy living room. To the right of the entrance hall is the master bedroom, tastefully decorated with a spacious built-in wardrobe and a serene, warm ambiance. The ensuite bathroom boasts a double shower tray, double mirrors, ample storage, radiators, air conditioning, and bright lighting. There is also a second bedroom with the same charming features as the master, including direct access to the naya. From this delightful naya, a semi-spiral staircase leads to the upper floor, where breathtaking views unfold. Upstairs, you will find a spacious and independent studio surrounded by windows that frame the valley, mountains, and sea in all their splendor. This floor also features a large, luminous bedroom with high ceilings and evenly spaced exposed wooden beams, a cozy living-dining area, and a fully equipped kitchen and bathroom. Adjacent to this level is a vast solarium with unobstructed views of the valley and the sea. Its terracotta floors and natural lighting, bordered by walls adorned with artistic iron grills, create a charming atmosphere. In the 43 m² basement, there is a laundry area, a renovated lounge, and an additional space currently used as storage, awaiting refurbishment. The outdoor area includes a pool surrounded by terraces, a chill-out zone with a Jacuzzi, and boundary-defining trees. The garden wraps around the villa and is easy to maintain. The property also features a spacious garage with an office area. This villa is equipped with 19 fully functional solar panels, an inverter, and batteries.
