

Atterrir à vendre à Javea, Javea

200 000 €

Référence: R4389472 Terrain: 1 000m²

Costa Blanca North, Javea

Las Lomos de Rey is a new urbanisation of 52 building plots in Javea. The construction of some villas has started and you can choose your own design, architect and builder. Roads and pavements are fully completed and electricity, water, mains drainage and piped gas are all connected to each plot. Yes, that means no gas bottles. This is an impressive urbanisation in a great location mid-way between the coastal towns of Javea and Moraira on the Costa Blanca. The plots sit in a gently sloping valley at the foot of the Granadella forest ridge. Most of the plots are flat and all have views across the valley to Mount Montgo. Stunning sunsets over Montgo are guaranteed. 26 plots are still available, but they are selling fast. For more details and a map of Los Lomas del Rey please contact Plots Direct. Prices start at 200. 000€ per plot.
