Additionally, there are two further rooms, currently used as an office and workshop, that could easily be converted into extra bedrooms. An internal staircase leads to a beautiful master bedroom with its own spacious balcony overlooking the pool and the valley. The master suite also features a walk-in wardrobe and a large bathroom with twin sinks. On this level, there are also three double bedrooms, a family bathroom, and a playroom that could be used as another bedroom or converted into an en-suite bathroom.
