Costa Blanca South, El Chaparral

I present this renovated detached villa with a huge garden and a saltwater pool. The garden has a 1050m² plot. It is located in the Chaparral area of Torrevieja. This detached villa has been completely renovated. The entire house has underfloor heating. Each room has air conditioning. It also has 24 solar panels. What stands out about this villa is its large 1050m² garden. A beautiful, well-maintained garden with a private saltwater pool. That's not all: there is a wooden summer house in the garden with a kitchen and a veranda. There is also a garage and parking on the plot. The house offers 163m² of built area, spread over two floors. At the entrance, we find a hall. It has a spacious and modern living room next to the furnished dining room, also featuring a radiant fireplace. The separate kitchen is fully equipped with a modern style in dark tones. It has 4 bedrooms and 2 modern bathrooms. There is one room designated as a dressing room. It also has a storage room, perfect for keeping the house tidy. A 20m² terrace offers beautiful views of the garden. The Chaparral area is a residential neighborhood with large gardens and well-kept green spaces that create a peaceful and exclusive atmosphere. It boasts beautiful views and easy access to services and infrastructure. It is located very close to the AP-7 motorway, allowing quick access to Alicante, Murcia, and other areas of the Costa Blanca. It is a quiet area, ideal for those seeking tranquility without being far from amenities.
