

Atterrir à vendre à Javea, Javea

215 000 €

Référence: R5058910 Terrain: 1 000m²

Costa Blanca North, Javea

This is an urban plot of 1000 m² located in the quiet and sought-after area of El Tosalet in Jávea. The plot has its own well containing spring water, which is a great advantage for the use and maintenance of the land. Currently, the plot is sold without a defined construction project, but we have two plans that serve as proposals for possible designs. These proposals are meant to help you envision the different options and possibilities that the land offers. It is important to note that the owner has already submitted a project to the town hall, and as soon as the approval is received, construction will begin, which could influence the selling price. This plot is an excellent opportunity for those looking to invest in land with potential in a privileged area, with the flexibility to design their home or project to suit their needs.
